Key Benefits

Assessment/Optional

Cotrugli offers you an opportunity to evaluate executives in your company through an assessment. This feature is optional and is free of charge.

In a short period, your organization will receive a neutral report on candidates' intellectual abilities, organizational skills, creativity talents, and results of their overall potential.

Selection process

Deciding for an assessment means that the executives from your organization who apply for the EMBA will be evaluated through a rigorous assessment process.

The candidates pass through 2 or 3 rounds of the selection process:

ROUND 1

Candidates receive individual assignments related to your industry, and submit their answers by the scheduled deadline. Your organization decides on the deadlines, complexity, and the time length of assignments.

ROUND 2 - recommended

Candidates are grouped in virtual teams to solve the assignment in the short time period - from 5 pm till 10 pm. In this way their teamwork skills become transparent.

ROUND 3

Finally, the candidates approach the personal assessment and interview. Here, our professionals focus on their personal and career objectives, professional experience, and their capacity and achievements.
